EasyMailArchive

Partner programme for IT service providers and MSPs · October 2026

Email archiving for your customers. Under your brand, hosted in Germany.

Every business in Germany has to keep business email for six to eight years under HGB and AO. Most of your customers only have the mailbox and a backup. EasyMailArchive closes that gap: hosted in Germany, runs in the cloud, with no project on your side.

WHAT EASYMAILARCHIVE DOES

- Archives every inbound and outbound email automatically: via BCC or journal rule from Microsoft 365, Google Workspace or any SMTP server, or from any IMAP server.
- Full-text search across messages and text attachments.
- Retention rules with automatic deletion after the period ends, legal hold, complete audit log, signed PDF export for auditors.
- Data centre in Germany (WITT AG). Separate database, storage area and encryption key per customer.

YOUR ADVANTAGE AS A PARTNER

White label
Your logo, your colours, your domain on request (customer.your-domain.com). End customers only see your brand.

Partner portal
All tenants in one dashboard with license and usage figures.

Reseller API
Create, suspend, delete tenants and set license caps via REST.

Your price
You set the end-customer price and keep the difference. We invoice you monthly.

GoBD: We provide the technical side: stored unchanged, with a SHA-256 checksum per email, logging of every access, retention over the full period. No archive system holds an official GoBD certification; the procedural documentation stays with the customer, we provide the template.

TERMS

LICENSES (ALL TENANTS)	PARTNER PRICE / LICENSE / MONTH	MARGIN AT BUSINESS LIST PRICE (9.00 EUR)
25 to 249	on request	
250 to 500	6.50 EUR	2.50 EUR (28%)
501 to 1,000	5.00 EUR	4.00 EUR (44%)
1,001 to 5,000	3.50 EUR	5.50 EUR (61%)
over 5,000	individual	

All prices net. Minimum 25 licenses. Every partner tenant includes all Business features (legal hold, signed PDF export, API). Annual billing with an additional discount is available.

HOW TO START

1. Apply through the contact form, subject "partnership". We usually reply within 2 working days.
2. You receive access to the partner portal and upload logo, colours and optionally your domain.
3. You create the first tenant, in the portal or via the API.
4. You set up the BCC or journal rule at the customer or connect IMAP mailboxes. Existing mail is imported from IMAP, Microsoft 365 or Google Workspace.
5. You set retention rules and bill your customer at your price.
